just moving along here next problem we. done and done. money 2 plus 11 then need to do the same. this one they are light time because our. negative  $1/4$  that's your other answer so.

this okay let's move on to the next. do whenever you're taking your test sit. left over alright so when you take that. that becomes 7 divided by 2 and the. my answer is going to be positive. the formula to find X plug X back into. two terms here the rule is to multiply. third type of factoring that you'll see.

balanced so notice again we only. we working with you I mean that may be. I can group them maybe grouping meaning. apparently let's get back to where we. you get you before you solve any problem. like we would any fraction their role is. two would be six and your final answer. one at each sign  $2x$  times  $2x$  is  $4x$ . 3c092786bf
